## How and why was NurseONE created?

Delivering health care in Canada's diverse communities – from large urban centres to small northern inlets – is a challenge. But it is a challenge that Health Canada and First Nations and Inuit Health Branch of Health Canada knew could be overcome with technology. Health Canada & FNIHB partnered with C.N.A. and provided funding to create NurseONE, a unique personalized and interactive Web-based resource to support Canada's nurses.

To ensure NurseONE's relevance to you, we tested it with nurses throughout its development. The results have influenced the portal's navigation and content and will continue to impact the information that is developed for the site.

## What can NurseONE offer me?

You can access up-to-date, accurate information on a wide range of topics fully vetted and reviewed by CNA and its Editorial Panel.

Information from a trusted source – NurseONE is your online colleague.

**Professional Links:** offers you a set of resources, clinical and professional from across the world that will enrich your knowledge through evidence-based information, clinical references, disease-specific information, nursing policy statements, and much more.

**Professional Development:** This section of the portal focuses on the three elements of professional development: Continuing Competence, Career Development, and Continuing Education. In this section, you have the opportunity to complete a self assessment and learning plan for your continuing competence requirements; access advice and resources to help you plan and advance your career path; and access on-line learning modules and courses to meet your continuing education needs.
